

Basic TREX-DM geometry description

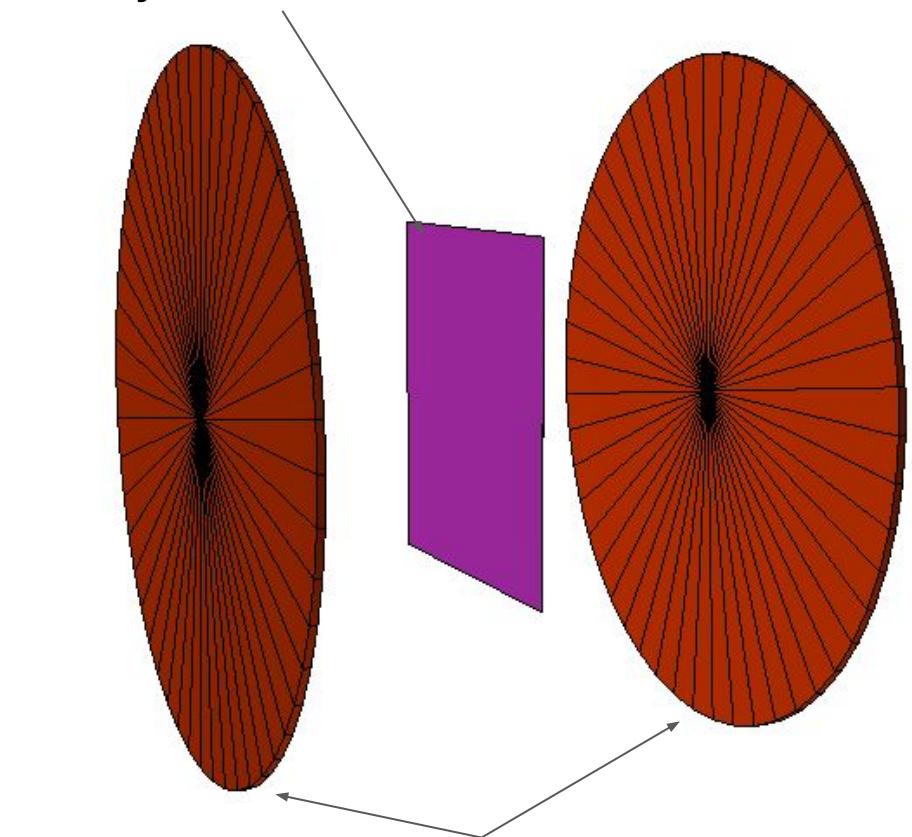

Visualization and distances

North support position = (0,0,190)mm

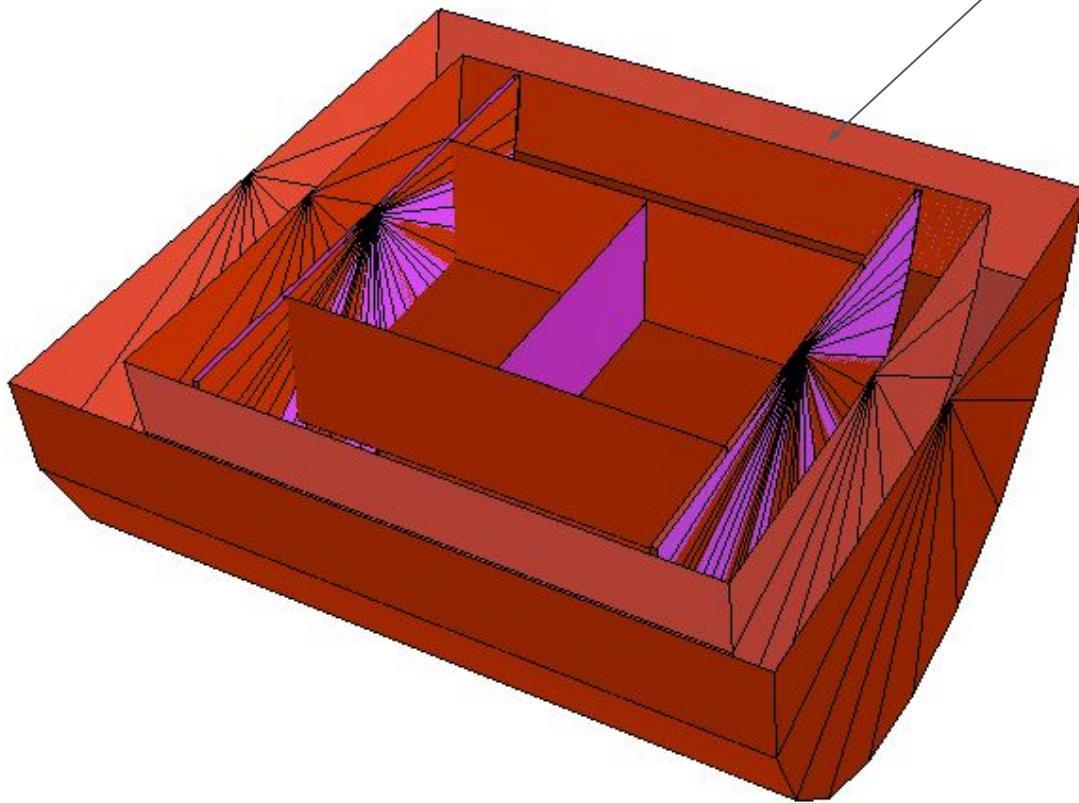

**Field cage : 25cm x 25cm x 38cm
Thickness 5um copper**

Mylar cathode: 24.3cm x 24.3 cm x 50 um

mm support plates : 24.3 cm radius x 5mm thickness

vessel : 6cm thickness surrounding
the gas volume

gas volume :

- Radius 25cm
- Length 50cm
